Instructions

Materials:

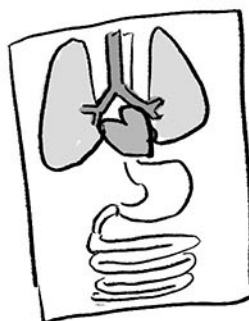

- scissors
- glue
- coloured pencils
- string
- sticky tape
- A3 coloured card

Step 1: colour in the organs on page 2 and 3, then cut them out.

Step 2: using the glue, stick the organs to the A3 coloured card:

- First, glue the **oesophagus**, **stomach** and **small intestine**.

- Next, glue the **trachea**, **lungs** and **heart** (NB: they overlap the oesophagus).

- Finally, add the **large intestine**.

Step 3:

- Use string to make a loop big enough to hang comfortably over the back of your neck.
- Use the sticky tape to attach the ends of the string to the top of the A3 card.
- Pop your head through the loop so the organs sit in front of your chest. You're done, that looks so cool! ... and gross!
